

Dolce Vita

Novelties from VAUEN
AUTUMN/WINTER 2026

Dear pipe lovers,

'**Dolce Vita**' is all about **the finer things in life**: good food, special places, convivial moments and the pleasure of **consciously taking time for enjoyment**. Few countries embody this way of life quite like **Italy**.

True enjoyment, however, rarely happens in passing. Behind a good pasta dish, a perfectly prepared aperitivo or a timeless design are often **years of practice**, **an assured eye for detail** and the patience to truly master a craft. That is precisely what defines our work at VAUEN: for generations, we have combined **traditional craftsmanship with new ideas** and the ambition to create pipes with **a character all their own**.

I have been responsible for VAUEN **since June 2026**. My wife, Julia Eckert, belongs to the **sixth generation of the founding family**, and through her I have become part of this long history myself. This is **the first brochure I have the privilege of overseeing in this role**, and I look forward to continuing, **together with our team**, the tradition that has shaped our manufactory **for 178 years**.

With our **new products for autumn and winter 2026**, we invite you on a **short journey through Italy**. It takes us from the **landmarks of the Eternal City** along **sun-drenched coasts and through picturesque landscapes** to the narrow lanes of typical Italian towns.

Each of our new series captures a different facet of the **Italian way of life**. Sometimes **natural materials** take centre stage, sometimes **bold colours**. As different as the models may be, they all share one thing: the pleasure of **high-quality design and special moments of enjoyment**.

Discover **our new products** on the following pages and let **a touch of Italian joie de vivre** accompany you.

With all our best wishes,

Florian Eckert
Managing Director

This abbreviation identifies pipes with a particularly attractive grain or an elaborate manufacturing.

ROMA

Skyline Edition 2026

Our special 'Skyline' edition pays homage to remarkable cities around the world. Every year, we select a new city and capture it in a unique limited-edition model.

Following the launch with our home city of Nuremberg, this year our journey takes us where all roads famously lead: to Rome, the city of joie de vivre, indulgence and the perfect moment.

The hand-cast pewter ring on the shank of the SKYLINE Roma brings together some of the city's most famous landmarks – from St Peter's Basilica and the Colosseum to the Ponte Sant'Angelo. The laser-engraved bowl ring bears the model's name and, like its sister from Nuremberg, is adorned with the crossed VAUEN pipes.

Presented in elegantly designed special packaging featuring the skyline of Rome, this white dot pipe, limited to 300 pieces, is an exceptional collector's item.

SKYLINE Roma –
a piece of the Eternal City.

• Art.-No. ROMA

There is more to a **perfect aperitivo** than the right recipe. It takes **experience, instinct and craftsmanship**. These are precisely the qualities that define our **AMBA white dot series**.

At its heart is **Amboina burl**, regarded as one of the **most sought-after and expensive burl woods**. Its **distinctive figure and remarkable depth** make it a prized material for sophisticated applications. It is used to enhance **luxury vehicle interiors**, as well as for **exclusive writing instruments** and **high-quality knife handles**.

Every AMBA showcases the wood's **natural colouring and figure** in its own distinctive way: sometimes light and quietly figured, sometimes rich in contrast and full of life. Because hardly any two blanks are alike, we **select every piece by hand**. **Small irregularities and inclusions** are part of its nature and give each individual model its **unique character**.

The **hand-oiled surface** emphasises the **natural variety and depth of the wood**, while a **finely finished aluminium ring on the shank** adds a **restrained, modern contrast**.

The series is available in **six different bowl shapes**. It will be **produced only once** and is not part of a recurring edition. Anyone who chooses an AMBA receives a **piece unlike any other**.

AMBA – perfectly imperfect. Every pipe is unique.

Just as in **traditional craftsmanship**, careful finishing gives the **sandblasted version** of our new YORKSHIRE white dot series a **structure all its own**.

The **distinctive surface** brings the **grain of the wood** vividly to life and lends each of the **six bowl shapes** an **expressive, rustic character**. The **long army-mount mouthpiece**, the natural bowl rim, the end of the shank and the visible wood below the ring are all retained as **natural details**.

YORKSHIRE sandblasted – classic in style, distinctive in appearance.

Good things take time. This is as true of **handmade pasta** as it is of our new **YORKSHIRE white dot series**.

The **YORKSHIRE's long army-mount mouthpiece** is complemented by **natural accents** on the bowl rim, at the end of the shank and below the ring. These **deliberate contrasts** give each of the six bowl shapes its **traditional character**.

The series is available with either a **smooth, polished finish** or a **sandblasted finish**. The smooth version showcases the **natural grain of the wood** particularly beautifully and emphasises the **timeless, classic character** of the **YORKSHIRE**.

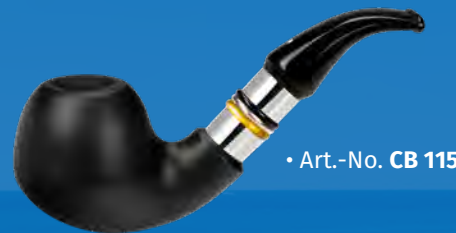

YORKSHIRE – classic enjoyment with great attention to detail.

Colourful swimming rings are simply part of a **carefree day by the sea**. In our new **CAMBIA white dot series**, the rings likewise become a **personalised eye-catcher**.

Up to **three slim interchangeable rings** can be fitted between **two fixed aluminium rings** and combined in any arrangement. Five different variants are available: **black, silver and amber**, as well as two rings each in white and briar. **Seven interchangeable rings** are included in total, ensuring the right combination for **every mood and every occasion**.

In an instant, the CAMBIA takes on a **new look** to suit the **mood** or **personal taste**.

The series is available in **three bowl shapes** – either in **elegant black with a black mouthpiece** or in **modern white with a matching white mouthpiece**.

CAMBIA – ring the changes with a new look.

CAMBIA

Savanna

A **sun-drenched coastal town** and the **warm reds and yellows** of an **Italian late summer** define our new **SAVANNA standard series**.

Expressive shades of yellow and red meet a **distinctive sandblasted finish** that gives the briar a **lively texture and a pleasant feel**. While the bold yellow recalls the **warmth of the Italian sun**, the intense red embodies **temperament and joie de vivre**.

The yellow version is complemented by a **multicoloured mottled mouthpiece**, while the **black mouthpiece of the red version** creates a **striking contrast**. Both combinations harmoniously complete the overall appearance of each of the **three bowl shapes**.

The SAVANNA thus becomes a **confident companion** for anyone who wants to **show their colours**.

SAVANNA – Italian joie de vivre in red and yellow.

Riding a **scooter through narrow Italian lanes** – few images capture the **lightness and freedom** of an **Italian summer on two wheels** quite so perfectly. This unmistakable way of life is also captured in our new **VELA standard series**.

The combination of the **bowl's warm-toned surface** and the **white mouth-piece** gives the VELA a particularly fresh, modern expression. The two elements are joined by a **turquoise-green ring** with a **finely laser-engraved hexagonal pattern**, creating a lively contrast with the **natural appearance of the briar**.

The series is available in **six bowl shapes** – from **classic, straight lines** to **sweeping elegance**.

VELA – Italian lightness meets modern pipe design.

Few things are as much a part of an **Italian summer's day** as a **gelato**. Its wealth of colours is echoed in the **vividly mottled mouthpiece** of our new **FIGO white dot series**.

The FIGO reveals what nature has **created over decades**. The **growth rings of the oak** are not only beautiful to look at; they also tell a story of their own. Each ring stands for **a year of growth**, for summer and winter, for **strength and patience**.

In the **brushed version**, the oak's **light, fine texture** is gently brought to the fore. As no two pieces of wood are alike, every pipe has its **own individual figure**. A **briar insert in the bowl and shank** ensures an **authentic tobacco experience** and complements the elegant combination of materials and colours.

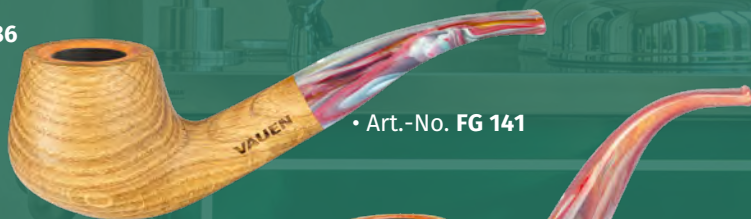

The **limited series** is available in **six attractive bowl shapes**.

FIGO brushed – natural texture meets the Italian love of colour.

An artfully crafted **Italian marble fountain** shows how impressive a surface can be through **depth, texture and fine detail**. The **sandblasted version** of our **FIGO white dot series** embraces precisely this idea.

Sandblasting brings the **growth rings of the oak** particularly vividly to the fore. The result is a **relief-like surface** that feels alive to the touch and lends every pipe a **distinctive, expressive character**. In this way, the structure that has **developed in the wood over many years** becomes visible in a very special form.

This version also features a **briar insert in the bowl and shank**, together with a **colourfully mottled mouthpiece**. **Six different bowl shapes** are available.

FIGO sandblasted – a structure shaped by time, impressively revealed.

auenland
— SIGNATURE EDITION —

eldorin

Since its introduction in 2013, our **Auenland series** has stood for a **world of pipe smoking all its own**. With its **unmistakable design language** and distinctive character, it has not only built a loyal following among Auenland fans, but has long since become an established part of the **pipe community**.

This world is now expanding for the first time to include a category that places **exclusivity and refinement** even more firmly centre stage. The '**Auenland Signature Edition**' represents the exceptional within the series – models with elaborate finishing, an individual expression and an **extraordinary attention to detail**.

With the **ELDORIN**, available in smooth and sandblasted finishes, this new chapter begins. A defining feature is the **inset copper ring on the bowl**. Carefully fitted, it creates a distinctive accent and gives every pipe an unmistakable handcrafted touch. The **continuous laser engraving** bearing the **Auenland name** further emphasises its individual character.

The **special packaging** also reflects this ambition and provides a fitting setting for the new category. A **high-quality leather pouch** completes the overall presentation. The very first impression thus becomes part of the experience – an invitation to delve deeper into the world of Auenland.

ELDORIN – the beginning of the Auenland Signature Edition.

Auenland Signature Edition Tobacco

As a special addition to our Auenland tobacco family, we present the **new Auenland Signature Edition Tobacco** – a **harmoniously composed blend** with a balanced character and delicate aroma.

The blend is based on **Black Cavendish, selected Virginia tobaccos, Virginia Flake and Burley Cube Cuts**. The different cuts give the blend a **cool, even burn**.

Delicate notes of **forest berries, nuts and caramel** recall the untouched, pristine landscape of Auenland and create a pleasant room note. The result is a **mild, aromatic Auenland tobacco** with a character all its own.
